IT specialist. I've been creating web applications in react for 15 months. I did a 3 month internship as a junior backend developer (node.js). Experience in working as a service technician and a junior specialist in the configuration of remote print servers. I currently reside in Lublin and I am interested in working in this location, although I am open to the possibility of remote work.

EXPERIENCE

08.2022 – 12.2022
SERVICE TECHNICIAN AND A JUNIOR SPECIALIST IN THE CONFIGURATION OF REMOTE PRINT SERVERS

Repair and preparation of devices. Remotely instructing the customer how to repair their devices themselves. Configure remote print servers.

06.2023 – 08.2023
JUNIOR BACKEND DEVELOPER

Designing and implementing various functions in Node.js based applications. Responsibility for writing effective and high quality code and ensuring that the application runs smoothly.
